

*Remarks*

Reconsideration of this Application is respectfully requested.

Upon entry of the foregoing amendment, claims 1-44 are pending in the application, with Claims 1, 4, 6, 9, 14, 16, 19, 21, 26, 32, 37, and 40 being the independent claims. Claim 21 has been amended. Claims 45-231 are sought to be cancelled without prejudice to their resubmission in this or another application should the Examiner's position be reconsidered or reversed in subsequent proceedings. These changes are believed to introduce no new matter, and their entry is respectfully requested.

In addition, a substitute declaration of the inventors is submitted herewith to overcome the Examiner's object to the prior declaration. It is believed that the substitute declaration satisfies the requirements of 37 C.F.R. 1.63.

Based on the above amendment and the following remarks, Applicants respectfully request that the Examiner reconsider all outstanding objections and rejections and that they be withdrawn.

The Examiner objected to the previous Amendment as being "in improper format because the claims are not underlined as required by 37 CFR 1.173(d). Also, the amendment is not accompanied by 'an explanation of the support in the disclosure of the patent for the changes made to the claims' as required under 37 CFR 1.173(c)." (Office Action, pp. 2-3.) In compliance with the requirements of 37 CFR 1.173(d), the amendments to the specification and claims have been underlined in the amendments presented above. The explanation required by 37 CFR 1.173(c) is set forth in the table below.
